**Moscow
Sidewalks**

**Property
Owner
Assistance
Program**

A functional sidewalk network links neighborhoods, adds value to homes, and serves to encourage the most basic form of transportation. The objective of the City of Moscow Sidewalk System Management Plan is to improve and maintain accessible pedestrian routes for all members of our community

In an effort to assist property owners to maintain this important part of our infrastructure, the City of Moscow has created a Property Owner Assistance Program which will provide a simple process for owners to have their walks evaluated, and repaired
