Sec. 1-7. Nonconformities.

A. Intent:

1. Within the zoning districts established by this Zoning Code or amendments thereto, there exist lots, structures, uses of land and structures, and characteristics of uses and structures which were lawful before this Zoning Code was enacted or amended, but which would be prohibited, regulated, or restricted under the terms of this Zoning Code or future amendment. It is the intent of this Zoning Code to permit these nonconformities to continue until they are removed, destroyed or lost by time, but not to encourage their survival. Further it is the intent of this Zoning Code that nonconformities shall not be enlarged, expanded or extended, nor be used as grounds for adding other structures or uses prohibited elsewhere in the same zoning district.

2. Nonconforming uses are declared by this Zoning Code to be incompatible with permitted uses in the same zoning district. A nonconforming use of a structure, a nonconforming use of land,

or a nonconforming use of a structure and land in combination shall not be extended or enlarged after passage of this Zoning Code by attachment to a building or by the addition of other uses, of a nature which would otherwise be prohibited in the same zoning district.

3. To avoid undue hardship, nothing in this Zoning Code shall be deemed to require a change in the City-approved plans, construction, or designated use of any building on which actual construction was lawfully begun prior to the effective date of adoption or amendment of this Zoning Code and upon which actual building construction has since been diligently pursued. Actual construction includes the placing of construction materials in permanent position and fastening in a permanent manner. Where excavation, demolition, or removal of an existing building has been substantially begun in preparation for rebuilding, such excavation, demolition or removal shall be deemed to be actual construction, provided that work shall be diligently carried on.

- B. Nonconforming Lots of Record: In any zoning district in which single family dwellings are permitted, where any single lot of record existing as of the effective date of adoption of this Zoning Code has been previously approved by the City, a single family dwelling and customary accessory buildings may be erected on such lot. This provision shall apply even if such lot otherwise fails to meet the requirements for area or width, or both, which are generally applicable in the district. Such lot shall conform to yard dimensions and requirements other than those applying to lot area or width for the zoning district in which such lot is located.

Variance of yard requirements may be granted only pursuant to the procedure set forth in this Zoning Code.

- C. Nonconforming Use of Land (or land with minor structures only): Where at the time of passage of this Zoning Code, or of an amendment thereto, lawful use of land exists which would not be permitted by the regulations imposed by this Zoning Code or an amendment, and where such use involves no individual structure with a replacement cost exceeding Two Thousand Dollars (\$2,000), such use may be continued as long as it remains otherwise lawful, provided:

1. No such nonconforming use shall be enlarged or increased, nor extended to occupy a greater area of land than was occupied at the effective date of adoption or amendment of this Zoning Code; and

2. No such nonconforming use shall be moved in whole or in part to any portion of the lot or parcel other than that physically occupied by such use on the effective date of adoption or amendment of this Zoning Code; and

3. If any such nonconforming use of land ceases for any reason for a period of more than thirty (30) days, any subsequent use of such land shall conform to the regulations specified by this Zoning Code for the zoning district in which such land is located. This provision shall not apply when the discontinuance or abandonment is caused by government action impeding access to the premises; and

4. No additional structure not conforming to the requirements of this Zoning Code shall be erected in connection with such nonconforming use of land.

- D. Nonconforming Structures: Where a lawful structure exists on the effective date of adoption or amendment of this Zoning Code that could not be built under the terms of this Zoning Code by reason of standards for area, lot coverage, height, yards, the structure's location on the lot, or other requirements concerning the structure, such structure may be retained if it

remains otherwise lawful, subject to the following provisions:

1. No such nonconforming structure may be enlarged or altered in any manner which increases its nonconformity, except as provided in M.C.C. 4-1-8(D)(4) below; and
2. Should such nonconforming structure or nonconforming portion of structure be destroyed by no fault of the owner (fire, flood, natural disaster, etc.), it may be reconstructed having the same zoning nonconformities, but no more than as existed before the damage occurred;
3. Should such structure be moved for any reason for any distance whatsoever, it shall thereafter conform to the regulations for the zoning district in which it is located after it is moved; and
4. A nonconforming structure may be enlarged or altered with the same zoning nonconformities through the issuance of a Conditional Use Permit.

E. Nonconforming Uses of Structures or of Structures and Premises in Combination: If lawful use of individual structures with a replacement cost of Two Thousand Dollars (\$2,000) or more, or of such structures and land in combination, exists on the effective date of adoption or amendment of this Zoning Code that would not be allowed in the zoning district under the terms of this Zoning Code, the lawful use may be continued so long as it remains otherwise lawful, subject to the following provisions:

1. No existing structure devoted to a use not permitted by this Zoning Code in the zoning district in which it is located shall be enlarged, extended, constructed, reconstructed, moved, or structurally altered except in changing the use of the structure to a use permitted in the zoning district in which it is located. An exception would be when destruction of an existing structure and use in combination occurs by no fault of the owner (fire, flood,

natural disaster, etc.), the structure and use in combination may be replaced to its original size and use prior to the destruction; and

2. Any nonconforming use may be extended throughout any part of a building which was manifestly arranged or designed for such use at the time of adoption or amendment of this Zoning Code, but no such use shall be extended to occupy any land outside such building; and

3. Any structure, or structure and land in combination, in or on which a nonconforming use is replaced by a permitted use, shall thereafter conform to the regulations for the zoning district in which it is located. The nonconforming use shall not thereafter be resumed; and

4. When a nonconforming use of a structure, or of a structure and premises in combination, is discontinued or abandoned for six (6) consecutive months or for eighteen (18) months during any three (3) year period, the structure, or structure and premises in combination, shall not thereafter be used except in conformity with the regulations of the zoning district in which the structure is located. This provision shall not apply when the discontinuance or abandonment is caused by government action impeding access to the structure or premises;

F. Repairs and Maintenance:

1. Ordinary repairs and maintenance may be done on any nonconforming structure or nonconforming portion of a structure.

2. Further, upon order of any official charged with protecting the public safety, any building or part thereof declared to be unsafe by such official may be strengthened or restored to a safe condition.
