

Water Use Treasure Hunt

Address: _____ Phone number: _____ Age of home: _____

Number living in home: _____ How long at current address: _____ Date: _____

In the Kitchen:

Score	Area Questions	Scoring Rules
	Sink- Does it have a leak? <i>Check under the sink, around the faucet base and for drips.</i>	(-1) if YES (+1) if NO
	Sink- Does it have an aerator? <i>Aerators screw into the end of the faucet, restricting the amount of water that flows out at once.</i>	(+1) if YES (-1) if NO
	Sink- Is the gallon per minute (gpm) rating 1.5 gpm or less? <i>If unknown, you can test it to find out. Time how long it takes to fill a gallon or half-gallon container. Divide the number of gallons measured by the time in minutes to get your rating.</i>	(+1) if YES (-1) if NO
	Dishwasher- How many gallons per cycle does it use? <i>Check the manual or look for a sticker on the door. If you find a leak add 3 gallons to the total.</i>	(+1) if less than 10 gallons (-1) if more than 10 gallons
	Dishwasher- Do you run it only when full?	(+1) if YES (-1) if NO
	Subtotal Score for Kitchen	

In the Bathroom:

Score	Area Questions	Scoring Rules
	How many bathrooms does your home have? <i>Total number of bathrooms in your household.</i>	Not included in score
	Sinks- Do the faucets have aerators? <i>See above for description.</i>	(+1) per sink WITH an aerator (-1) per sink MISSING an aerator
	Sinks- What is the gallon per minute (gpm) rating on the aerators? <i>See above for more information.</i>	(+1) per aerator that ≤ 0.5 gpm (-1) per aerator ≥ 0.5 gpm
	Shower- What is the gallon per minute rating of the showerhead? <i>Usually stamped on the showerhead where the water comes out. If unable to locate, assume 2.5 gpm.</i>	(+1) per showerhead ≤ 1.25 gpm (-1) per showerhead ≥ 1.25 gpm
	Do you have a timer to help you shorten your shower?	(+1) if YES (-1) if NO
	How many gallons per flush (gpf) does your toilet use? <i>In newer toilets, look for a stamp near the back of the toilet seat. If there is no stamp, lift the tank lid and look for a year of manufacture stamp. If older than 1996 assume greater than 1.6 gpf. If you find a leak, add 3 gal to total.</i>	(+2) if <1.6 gpf per toilet (+1) if $=1.6$ gpf per toilet (-2) if > 1.6 gpf per toilet
	Subtotal Score for Bathroom	

Outside:

Score	Area Questions	Scoring Rules
	Hoses- Do your hoses leak?	(-1) if YES (+1) if NO
	Hoses- Do you have a nozzle on your hose?	(+1) if YES (-1) if NO
	Do you irrigate more than 300 sq. feet of lawn?	(-2) if YES (+1) if NO
	Subtotal Score for Outside	

Let's See How You Did!

Add the subtotals from each category and plot on the number line. Don't worry if you scored lower than you expected. This exercise is designed to help you find ways to use less water and move your score up the line.

Total: _____

Want to improve your score?

If you are a City of Moscow water customer, we can help! Simply let us know which water conservation devices you need and how many! Email Kelli Cooper at kcooper@ci.moscow.id.us, and we will deliver your devices directly to your door!

Water Conservation Device	How many?
1.5 gpm swivel aerator (kitchen)	
0.5 gpm stationary aerator (bathroom)	
1.25 gpm showerhead	
Toilet tank bank (water displacement device for toilet tanks >1.6 gpf)	
Toilet Dye tabs (used for testing for leaks in your toilet)	
5-minute shower timer	
Hose nozzle	
Wisescape or Toilet replacement rebate information	
Wisescape Guidebook
