

VISTA PARK AND RESERVOIR

End of Hathaway Street

4.56 Acres

Description:

With a great view of Moscow and an enjoyable place to play a small soccer game or throw a Frisbee, this little park is nestled in a small housing development just off of Joseph Street.

The open space is located at the corner of Kathy and Vista Roads. A trail runs between each.

Amenities:

- Two Million Gallon Water Tank
- Amazing View
- Horseshoe Pit
- Picnic Tables - 3
- Walking Trail

History:

1990:

- The City Water Department constructed Vista Park, which was originally a large clay pit.

1991:

- The 2 million gallon water tank was built in 1991 by the City Water Department at Vista Park and Reservoir. It was originally supposed to be set in the park area, but because of its size, a portion of land just above the park was bought specifically for this tank.

2004:

- It was determined by the City that the Parks and Recreation department would take over the maintenance at Vista Park and Reservoir. They have been maintaining the park since that time.
