

Garbage Roll-Cart Instructions—Automated Collection

Roll-Carts will *not* be used for collection until August 1, 2013.

Please read all materials carefully to ensure your garbage service is not interrupted.

Please do not paint anything on the roll-cart as a fee will be assessed to replace and clean.

Roll-carts are intended for household waste only. **Please refrain from placing construction debris, hazardous wastes or hot ashes in your container.**

Loose garbage that is around or falls from your roll-cart during collection is the responsibility of the customer. To avoid this, please tie off all garbage in plastic bags and place in your roll-cart (see Figure 1 on back). Extra garbage that does not fit in your roll-cart will be assessed a fee of \$6.40 per bag or item.

Where To Place Your Roll-Cart

- Place your roll-cart for collection where it has been delivered to your home. Doing so will ensure your trash is collected.
- Your Roll-cart should not be within 3 feet of cars, other roll-carts, mailboxes, trees or other objects that will prevent the automated arm from being able to access your container (see Figure 2 on back).
- Place your roll cart with its wheels placed against the curb with the arrows on the lid pointing towards the street. If you have alley collection, make sure the roll-cart is at the edge of the alley (not in the alley) with the arrows on the lid pointing toward the alley.
- Please remove your roll-cart from the curblane or collection area by 12:00 p.m. (noon) of the following day (Title 9, Chapter 9 Moscow City Code).
- During heavy snow events, please make sure your roll-cart is not placed behind berms. During these times, please place your roll-cart at the end of your driveway for collection where you have cleared the snow.

On-Demand Service

- On-Demand service customers will receive a 35 gallon roll-cart with a black lid. If you are an On-Demand customer and you did not receive a roll-cart with a black lid, please call Latah Sanitation immediately.
- Conversely, if you received a 35 gallon roll-cart with a black lid and you are not an On-Demand customer, please call Latah Sanitation immediately.

- On-Demand customers who leave their roll-carts out at the collection point run the risk of having their roll-cart emptied even if it is not full. Please promptly remove your roll-cart from the collection area to avoid any unintended collection fees.

Roll-Cart Exchange

If your roll-cart is not sized correctly for the amount of garbage you produce, you will have a 60-day grace period in which to exchange sizes for free. After 60 days, an \$18 exchange fee will be charged.

Missed Garbage Service

If your garbage is missed, please call Latah Sanitation at 208-882-5724 as soon as possible. In most cases your garbage can be collected the same day or by 5:00 p.m. the following work day. Latah Sanitation will provide one (1) free return service per calendar year. Depending on the circumstances, additional return services may be subject to an additional fee.

What To Do With Your Old Garbage Can

- Turn it into a Rain Barrel; search on-line for directions
- Turn it into a Back Yard Composter, drill holes on sides of can, roll on its side to mix
- Use it as a planter by cutting the top off or as a form for a nicer looking planter
- Use it for hauling yard waste to the 24-hour yard waste drop-off facility behind Moscow Recycling on N. Almon St.
- Use it for storing hoses or other garden items
- A trash can buried in the ground and filled with sand or hay, lid on, works to store root vegetables like potatoes & carrots

Curbside Service

Curbside recycling will still be collected the same day as your garbage.
